

# ANNOUNCEMENT

**“April 2004 - RPC Technologies acquires Transform Composites Pty. Ltd.”**

RPC Technologies is pleased to announce the merger and acquisition of the business of Transform Composites Pty. Ltd. (trading as Transform Rail Interiors) effective from 24 April 2004.

Transform Rail Interiors specialises in the design, manufacture, testing, installation and refurbishment of;

- Passenger Train Interior Systems
- Train Electrical Systems
- Structural Fibre Reinforced Plastic Products

The acquisition provides RPC Technologies with a broader market base by adding rail to its already extensive activities in the defence, power, water and industrial markets.

The Transform business will benefit through RPC's strong international framework of operations and business network.

The inclusion of the original Transform investors with the existing RPC Technologies investors into the new single merged entity demonstrates a firm resolve to the success and growth of the business.

Trading companies across the RPC Technologies Group are now;

- RPC Technologies Pty. Ltd. ABN 29 100 903 124
- Transform Rail Interiors (a division of RPC Technologies Pty. Ltd.)
- RPC Singapore Pte. Ltd. (Singapore Operation)
- PT RPC Indonesia (Indonesian Operation)

RPC wish to assure all of our existing and new customers, suppliers and other business associates of our continuing commitment to quality, service and project delivery in our chosen fields of fibre composite structures and systems, specialty fabrications and rail interior systems.

All your usual business contacts remain unchanged.
