

“September 2008 - Country Representative Agreement” between

ACROW CORPORATION OF AMERICA

&

RPC TECHNOLOGIES PTY LTD

Serving the Industry for more than Half a Century, Acrow is an Industry Leader in the design and manufacture of Prefabricated Modular Steel Bridges. Its headquarters is in Parsippany, New Jersey, USA. Please click on link below to source further information.

[://www.acrowusa.com/](http://www.acrowusa.com/)

Acrow's primary business is the engineering, manufacturing, and supply of prefabricated modular steel bridges for emergency, temporary detour, and permanent applications. The product line of steel bridges includes:

- Acrow® Panel Bridges
- Pedestrian Bridges - modular or fixed length trusses
- Beam Bridges - vehicle or pedestrian
- Movable Bridges - Vertical Lift, Bascule, Retractable, or Swing
- Pipe Bridges
- Falsework and Formwork
- Callender-Hamilton Truss Bridges
- Superprop® Shoring Systems
- Heavy Haul Bridges
- Marine Roll-on Roll-off Ramps
- Railroad Bridges

Acrow bridges are manufactured to ISO 9000 quality standards and design standards such as AASHTO. They may be purchased, rented, or leased to meet individual customer needs. Services include all superstructure engineering and upon request will provide substructure engineering services.

RPC Technologies is pleased to announce that on the day of September 2008, a Representative Agreement between Acrow Corporation of America and RPC Technologies was drawn up in which Acrow appointed RPC Technologies as an exclusive selling representative of their products in Australia.

Products offered for sale by Acrow, which are covered in this agreement , include Acrow Panel Bridge, other Acrow Bridges and other Acrow Associated Structures distributed by Acrow.

For enquiries on Acrow Products in Australia, please contact Tony D'Andreti, Operations Manager Defence, RPC Technologies on +61 2 9624 9812.
