

PIPES AND FITTINGS

RPC TECHNOLOGIES • COOLING WATER PIPES

Client: FOSTER WHEELER ENERGY

Approx Value: \$ 4, 600,000

Completion: 2010

Location: EXXON MOBIL, SINGAPORE PARALLEL TRAIN, SINGAPORE

Description:

Manufacture and deliver 900Ø -2300Ø GRP Seawater Cooling Water Pipes (800 Kpa) for Exxon Mobil Singapore Parallel Train Project. Total piping length exceeded 800 meters and includes custom pipe spools with Duplex and Silicon Carbide liners to service highly turbulent flow environments. Pipe wall thickness (2300Ø) exceeded 40mm to comply with client's design philosophy to achieve pipe stiffness without use of stiffening rings.
