

# ANNOUNCEMENT

## SIGNING OF LARGEST CONTRACT

### Exchanging Contracts

**Bob Evans – Project Director ( BWJV)**  
&  
**Tony Caristo, Managing Director (RPC Technologies)**

RPC Technologies is pleased to announce the recent signing of a Contract with the Blue Water JV (a joint venture between John Holland Pty Ltd and Veolia Water Australia Pty Ltd) **for the supply, manufacture and site installation of GRP Pipework for Sydney's Desalination Project.**

**Contract Award Date: 14<sup>th</sup> August 2008**  
**Value: In excess of \$30 million**

The works represents the largest value contract to be executed by RPC Technologies in its history and is the third Contract signed for the Sydney Desalination Project with BWJV to date.

The scope of work includes:

- 16.5 Kms of piping ranging from  $\Phi$ 200mm - to  $\Phi$ 2300mm
- 3600 Fittings - (elbows, flanges, reducers etc)
- 4200 Shop Spool Joints
- 1700 Site Spool Joints

Work will involve manufacture from our Batam Island, Kooragang Island and Broadmeadow plants, supplemented by some subcontractors, for the manufacture and site activities.

Other Contracts awarded to date include:

- ❖ Design, supply, manufacture of the GRP (4)inlet and (4) outlet Risers – each of  $\Phi$ 1.5m in diameter
- ❖ The Design of the GRP Piping System within the Sydney Desalination Plant, both buried and above ground piping.

This brings the total Value of Contracts to over \$35.0m for the project.

RPC Technologies has been involved in all 3 major Desalination Projects in Australia, including the Perth and Gold Coast Desalination Plants.

**TOTAL WORK IN HAND NOW OVER \$60.0M**
