

March 2010 – RPC Technologies Chairman, Dr. Vitoon Vivatrat honoured by receiving the prestigious ASCE (American Society of Civil Engineers) OTC (Offshore Technology Conference) Hall of Fame Award

ASCE (American Society of Civil Engineers) and COPRI (the Coasts, Oceans, Ports and Rivers Institute) honour RPC Technologies Chairman, Dr. Vitoon Vivatrat by nominating him to receive the prestigious ASCE OTC Hall of Fame Award for his Offshore Technology Paper “**4115 Ice Force Prediction Using a Limited Driving Force Approach**”, presented in 1981.

ASCE initiated the Hall of Fame for OTC papers in 2005 to recognize those technical papers, presented in the early years of OTC, which provided the industry with innovation, vision, direction and lasting impact on the design, construction or installation of the offshore infrastructure.

Dr. Vitoon’s paper is among eight papers selected to receive an award at the Fifth Annual ASCE OTC Hall of Fame. All papers were presented at OTC conferences thirty or more years ago, yet they still form the core of current practice worldwide.

2010 OTC Hall of Fame Honored Papers
